## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendment filed on April 18<sup>th</sup>, 2011 has been entered.
2. In view of the amendment to the claims, the amendment to claim 14 has been acknowledged. Claims 1 – 13 were previously cancelled.
3. In view of the amendment to claim 14, the 35 U.S.C. 103 rejections of claims 14 – 21 have been withdrawn.

### ***Response to Arguments***

4. Applicant's arguments, see pages 6 – 9 of the Remarks, filed on April 18<sup>th</sup>, 2011, with respect to the claim rejections have been fully considered and are persuasive. The rejections of the claims have been withdrawn.

### ***Allowable Subject Matter***

5. Claims 14 – 21 [renumbered as claims 1 – 8] allowed.
6. The following is an examiner's statement of reasons for allowance:
  - a. The claimed invention is directed to a prescription tablet storage and dispensing apparatus. Specifically, the invention fills vials with tablets, photographs the interior of each filled vial, caps the vials and stores the vials in determined take-out ports. Upon reading a prescription barcode, the system indicates the take-out port storing the corresponding vial. When the vial is taken

out of the take-out port, the invention displays a confirmation screen displaying both the prescription data and the image of the interior of the corresponding vial. The invention allows a dispensing pharmacist/operator to verify that the tablets inside of the vial correspond to those prescribed without having to uncap the vial. As discussed in previous Office Actions, several claimed components are known in the art. However, the prior art of record, alone or in combination, does not appear to reasonably teach or suggest the specific structural relationship required by the combination of all the claimed limitations in light of and consistent with the written description of the invention in the application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
  - a. Boyer et al. (U.S. Patent No. 6,202,923) teaches an automated pharmacy in which images of the vial before it is capped and the prescription are taken for later verification/record-keeping purposes.
